

Bissen, Thursday, May 4th, 2021

Dear Mr. Dr Emmanuel Kieffer,

We are pleased to inform you that your proposal titled *Scalable A.I. Recommitment System* has been carefully reviewed and selected for the MeluXina early-access program.

We currently foresee the MeluXina supercomputer starting to be accessible on June 1st, 2021. The early-access allocation you have been granted will be valid until July 16th, 2021. If delays should happen in the start of operation, we would inform you as soon as possible. The end date of your early-access allocation would then be moved accordingly.

Accessing the system implies to agree with the acceptable use policy document that will be provided to you in due time.

Sincerely,

Roger Lampach, CEO

A handwritten signature in black ink, appearing to read 'R. Lampach', with a stylized flourish at the end.
